

S 115

INNOVATIVE

USER FRIENDLY

MULTIFUNCTIONAL

SINCE 1901

HEALTHY CLEANING

The S115 keeps the dirt to itself - no smells, no emissions, just clean air. Thanks to the 5 stages **Swiss Mediclean™ filtration system**, with its exclusive Swiss HEPA™ filter, the multiple layer dust bag, the active carbon filter and the post-motor HEPA filter with anti-bacteria treatment, the S115 not only cleans your surfaces but also purifies your ambient air.

ERGONOMIC CLEANING

Cleaning with **minimum effort** is finally possible! The S115 has been conceived to take care of your wrists, shoulders and back from the soft touch ergonomic handle through the adjustable telescopic tube and the foot pedals up to the stand-up parking position.

DEEP CLEANING

No carpet fibre is too long or groove too deep for the S115.

The combination of the nozzles with the **surface optimised suction power** removes dirt deep down from every floor, upholstery or mattress.

INTELLIGENT POWER CONTROL

All you need to do is move the brush on the floor.

Lux exclusively developed the world innovative Intelligent Power Control **combining performance with ease of use and energy optimisation**. The IPC in fact adapts the suction power to the floor type and the dust bag filling level, ensuring a constant efficient suction for a constant deep cleaning result.

TIME & ENERGY SAVING

Thanks to the IPC Automatic system, S115 only uses **as much energy as is necessary** for the respective surface, but, nonetheless, cleans your flooring quickly and effectively. Moreover, the dust container and the filter have to be replaced less frequently owing to optimised loading.

SINGLE ICON DISPLAY

The **big icons** on the display are easy to read also from a distance, they keep you informed on the used function and advise when the dust bag or the filters need to be changed.

CERTIFIED & RECOMMENDED

After scientific tests by independent German testing institutes, the S115 has been awarded the **Swiss Allergy Label** and is recommended by the Swiss allergy and asthma association *aha! Swiss Allergy Centre*.

USER FRIENDLY

Easy to use, far reaching, comfortable parking position, equipped with a vast accessory range for deep cleaning, big clear symbols and an inbuilt service system advising when to change the dust bag or the filters. The S115 will make cleaning a **whole new experience**.

QUALITY

S115 unifies the modern, timeless Swiss Design with quality „Made in Europe“. The elegant stainless steel cover, the high quality components and the robust construction provide for a **long and performing cleaning life**.

PB INTELLIGENCE

The motor brush PB Intelligence will tackle every floor thanks to the **Powerclean and Sensiclean brush rolls** for hard and delicate floors and the **automatic brush roll adjustment function**. The pleasant self drive, the front search light, the foot pedal interlocking and the stand-by position will make efficient cleaning even lighter.

AUTOMATIC NOZZLE

The patented intelligent Lux automatic nozzle **adapts the height of the brush according to the cleaning surface**. Thanks to the double swivel, it is unequalled in its **manoeuvrability** and also cleans below low pieces of furniture without problem.

PL 1

The care brush PL 1 has been developed to **thoroughly remove mites and allergens** on mattresses and upholstery.

COMBINATION NOZZLE & CO

The small combination nozzle is the perfect helper for **wiping dust**, cleaning upholstery or curtains. The radiator brush and the crevice nozzle are the perfect accessories for dusting even the narrowest gaps.

PLUS X AWARD

Due to its modern design, its advanced ergonomic and its thoughtful multifunctionality, the S115 has been awarded the prestigious German **PLUS X AWARD** for Design, Ease of Use and Functionality.

”

„I would recommend the S115 because it effectively improves the quality of the air. The unique filtration system makes sure that no particles are released in the air while vacuuming. This is a very rare feature on the market.“

Dr. Andreas Winkens, gui-lab

”

„The S115 was a great choice. It makes vacuum cleaning so much faster and easier. The various accessories are working just great! I am especially impressed by the powerful motor brushes that can thoroughly remove dust from even the narrowest edges. Now I practically clean every inch and corner with them. I can recommend this great device to everyone.“
